

Please reject NAB's petition 04-160. XM provides a service that FM radio does not. If XM ceases to exist, I will go back to listening to CD's and MP3's. FM broadcasting is very boring, playing the same 100 songs over and over and over. It seems to me that the NAB does not care about their listeners. All they are concerned about is ratings. My days to listening to standard FM radio are over.

Thanks,

Mike Wich
